**ФОРМУЛА ИЗОБРЕТЕНИЯ**

1. *Bacteroides thetaiotaomicron*, депонированная под регистрационным номером 42341 в NCIMB, или ее производное.

2. Композиция, содержащая *Bacteroides thetaiotaomicron* по п. 1.

3. Композиция по п. 2, в которой *Bacteroides thetaiotaomicron* является инкапсулированной.

4. Фармацевтическая композиция, содержащая *Bacteroides thetaiotaomicron* по п. 1 и фармацевтически приемлемый эксципиент, носитель или разбавитель.

5. Фармацевтическая композиция по п. 4, в которой указанная *Bacteroides thetaiotaomicron* является инкапсулированной.

6. Питательная добавка, содержащая *Bacteroides thetaiotaomicron* по п. 1 и приемлемый для питания эксципиент, носитель или разбавитель.

7. Композиция питательной добавки по п. 6, в которой указанная *Bacteroides thetaiotaomicron* является инкапсулированной.

8. Кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка, содержащие *Bacteroides thetaiotaomicron* по п. 1.

9. Кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка по п. 8, при этом указанный кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка являются инкапсулированными.

10. *Bacteroides thetaiotaomicron* по п. 1, композиция по п. 2 или 3, фармацевтическая композиция по п. 4 или 5, питательная добавка по п. 6 или 7 или кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка по п. 8 или 9 для применения с целью модуляции воспаления ткани или органа у субъекта.

11. *Bacteroides thetaiotaomicron*, композиция, фармацевтическая композиция, питательная добавка, кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка для применения по п. 10, при этом указанные *Bacteroides thetaiotaomicron*, композиция, фармацевтическая

композиция, питательная добавка, кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка способствуют уменьшению воспаления ткани или органа.

12. *Bacteroides thetaiotaomicron*, композиция, фармацевтическая композиция, питательная добавка, кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка для применения по п. 10 или 11, при этом указанная *Bacteroides thetaiotaomicron* способствует уменьшению воспаления эпителиальных клеток ткани или органа.

13. *Bacteroides thetaiotaomicron*, композиция, фармацевтическая композиция, питательная добавка, кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка для применения по п. 12, при этом указанные эпителиальные клетки представляют собой эпителиальные клетки пищеварительного тракта.

14. *Bacteroides thetaiotaomicron* по п. 1, композиция по п. 2 или 3, фармацевтическая композиция по п. 4 или 5, питательная добавка по п. 6 или 7, или кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка по п. 8 или 9 для применения в лечении и/или предотвращении заболевания у субъекта; при этом указанное заболевание представляет собой воспалительное заболевание и/или аутоиммунное заболевание, и/или аллергическое заболевание.

15. *Bacteroides thetaiotaomicron*, композиция, фармацевтическая композиция, питательная добавка, кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка для применения по п. 14, при этом указанное заболевание поражает пищеварительный тракт, секцию пищеварительного тракта и/или эпителиальные клетки.

16. *Bacteroides thetaiotaomicron*, композиция, фармацевтическая композиция, питательная добавка, кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка для применения по п. 14 или 15, при этом указанное заболевание выбирают из группы, состоящей из воспалительного заболевания кишечника (IBD), колита, ревматоидного артрита, псориаза, рассеянного склероза, диабета I

типа, целиакии, атопического дерматита, ринита, синдрома раздраженной кишки (IBS), язвенного колита, паучита, болезни Крона, функциональной диспепсии, атопических заболеваний, некротизирующего энтероколита, болезни неалкогольной жировой инфильтрации печени, желудочно-кишечной инфекции, а также их сочетаний.

17. *Bacteroides thetaiotaomicron*, композиция, фармацевтическая композиция, питательная добавка, кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка для применения по п. 14 или 15, при этом указанное заболевание представляет собой воспалительное заболевание кишечника (IBD), болезнь Крона, целиакию или язвенный колит.

18. *Bacteroides thetaiotaomicron* по п. 1, композиция по п. 2 или 3, фармацевтическая композиция по п. 4 или 5, питательная добавка по п. 6 или 7, или кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка по п. 8 или 9 для применения с целью уменьшения разрыва толстого кишечника у субъекта, предпочтительно указанный субъект имеет IBD.

19. *Bacteroides thetaiotaomicron*, композиция, фармацевтическая композиция, питательная добавка, кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка для применения по п. 18, при этом указанные *Bacteroides thetaiotaomicron*, композиция, фармацевтическая композиция, питательная добавка, кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка способствуют уменьшению или предотвращению нарушения целостности эпителия слизистой оболочки и/или уменьшению или предотвращению сокращения количества бокаловидных клеток в эпителии, и/или уменьшению или предотвращению инфильтрации иммунных клеток в собственную пластинку слизистой оболочки кишечника.

20. *Bacteroides thetaiotaomicron* по п. 1, композиция по п. 2 или 3, фармацевтическая композиция по п. 4 или 5, питательная добавка по п. 6 или 7, или кормовой продукт, пищевой продукт,

биологически активная пищевая добавка или пищевая добавка по п. 8 или 9 для применения с целью уменьшения экспрессии одного или более провоспалительных генов в клетке или клетках у субъекта.

21. *Bacteroides thetaiotaomicron*, композиция, фармацевтическая композиция, питательная добавка, кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка для применения по п. 20, при этом указанные провоспалительные гены выбирают из группы, состоящей из IL1- $\beta$ , IL6, IL8, IL10, а также их сочетаний.

22. *Bacteroides thetaiotaomicron*, композиция, фармацевтическая композиция, питательная добавка, кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка для применения по п. 20 или 21, при этом указанная клетка представляет собой клетку пищеварительного тракта (такую как клетка восходящего отдела толстого кишечника) или эпителиальную клетку (такую как эпителиальная клетка кишечника).

23. *Bacteroides thetaiotaomicron* по п. 1, композиция по п. 2 или 3, фармацевтическая композиция по п. 4 или 5, питательная добавка по п. 6 или 7, или кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка по п. 8 или 9 для применения с целью увеличения процентного содержания регуляторных Т-клеток (Treg) в пищеварительном тракте или секции пищеварительного тракта.

24. *Bacteroides thetaiotaomicron*, композиция, фармацевтическая композиция, питательная добавка, кормовой продукт, пищевой продукт, биологически активная пищевая добавка или пищевая добавка для применения по п. 23, при этом указанная секция пищеварительного тракта представляет собой собственную пластинку слизистой оболочки тонкого кишечника.

25. Способ получения фармацевтической композиции по п. 4 или 5, включающий смешивание указанной *Bacteroides thetaiotaomicron* с фармацевтически приемлемым эксципиентом, носителем или разбавителем, при этом указанная *Bacteroides thetaiotaomicron*, необязательно, инкапсулируется во время

указанного процесса.

26. Способ получения питательной добавки по п. 6 или 7, включающий смешивание указанной *Bacteroides thetaiotaomicron* с приемлемым для питания эксципиентом, носителем или разбавителем, при этом указанная *Bacteroides thetaiotaomicron*, необязательно, инкапсулируется во время указанного процесса.

27. Способ получения кормового продукта, пищевого продукта, биологически активной пищевой добавки или пищевой добавки по п. 8 или 9, включающий смешивание указанной *Bacteroides thetaiotaomicron* с кормовым продуктом, пищевым продуктом, биологически активной пищевой добавкой, пищевой добавкой или их ингредиентом; при этом указанная *Bacteroides thetaiotaomicron*, необязательно, инкапсулируется во время указанного процесса.

28. Способ модуляции воспаления ткани или органа у субъекта, включающий введение субъекту *Bacteroides thetaiotaomicron* по п. 1, композиции по п. 2 или 3, фармацевтической композиции по п. 4 или 5, питательной добавки по п. 6 или 7, или кормового продукта, пищевого продукта, биологически активной пищевой добавки или пищевой добавки по п. 8 или 9.

29. Способ лечения и/или предотвращения воспалительного заболевания и/или аутоиммунного заболевания у субъекта, включающий введение субъекту *Bacteroides thetaiotaomicron* по п. 1, композиции по п. 2 или 3, фармацевтической композиции по п. 4 или 5, питательной добавки по п. 6 или 7, или кормового продукта, пищевого продукта, биологически активной пищевой добавки или пищевой добавки по п. 8 или 9.

30. Способ уменьшения разрыва толстого кишечника у субъекта, включающий введение субъекту *Bacteroides thetaiotaomicron* по п. 1, композиции по п. 2 или 3, фармацевтической композиции по п. 4 или 5, питательной добавки по п. 6 или 7, или кормового продукта, пищевого продукта, биологически активной пищевой добавки или пищевой добавки по п. 8 или 9, предпочтительно, в случае, когда субъект имеет IBD.

31. Способ уменьшения экспрессии одного или более провоспалительных генов в клетке или клетках у субъекта,

включающий введение субъекту *Bacteroides thetaiotaomicron* по п. 1, композиции по п. 2 или 3, фармацевтической композиции по п. 4 или 5, питательной добавки по п. 6 или 7, или кормового продукта, пищевого продукта, биологически активной пищевой добавки или пищевой добавки по п. 8 или 9.

32. Способ увеличения процентного содержания регуляторных Т-клеток (Treg) в пищеварительном тракте или секции пищеварительного тракта, включающий введение субъекту *Bacteroides thetaiotaomicron* по п. 1, композиции по п. 2 или 3, фармацевтической композиции по п. 4 или 5, питательной добавки по п. 6 или 7, или кормового продукта, пищевого продукта, биологически активной пищевой добавки или пищевой добавки по п. 8 или 9.

33. Применение *Bacteroides thetaiotaomicron* по п. 1, композиции по п. 2 или 3, фармацевтической композиции по п. 4 или 5, питательной добавки по п. 6 или 7, или кормового продукта, пищевого продукта, биологически активной пищевой добавки или пищевой добавки по п. 8 или 9 в производстве лекарственного средства для модуляции воспаления ткани или органа у субъекта.

34. Применение *Bacteroides thetaiotaomicron* по п. 1, композиции по п. 2 или 3, фармацевтической композиции по п. 4 или 5, питательной добавки по п. 6 или 7, или кормового продукта, пищевого продукта, биологически активной пищевой добавки или пищевой добавки по п. 8 или 9 в производстве лекарственного средства для лечения и/или предотвращения воспалительного заболевания и/или аллергического заболевания, и/или аутоиммунного заболевания у субъекта.

35. Применение *Bacteroides thetaiotaomicron* по п. 1, композиции по п. 2 или 3, фармацевтической композиции по п. 4 или 5, питательной добавки по п. 6 или 7, или кормового продукта, пищевого продукта, биологически активной пищевой добавки или пищевой добавки по п. 8 или 9 в производстве лекарственного средства для уменьшения разрыва толстого кишечника у субъекта, предпочтительно в случае, когда субъект имеет IBD.

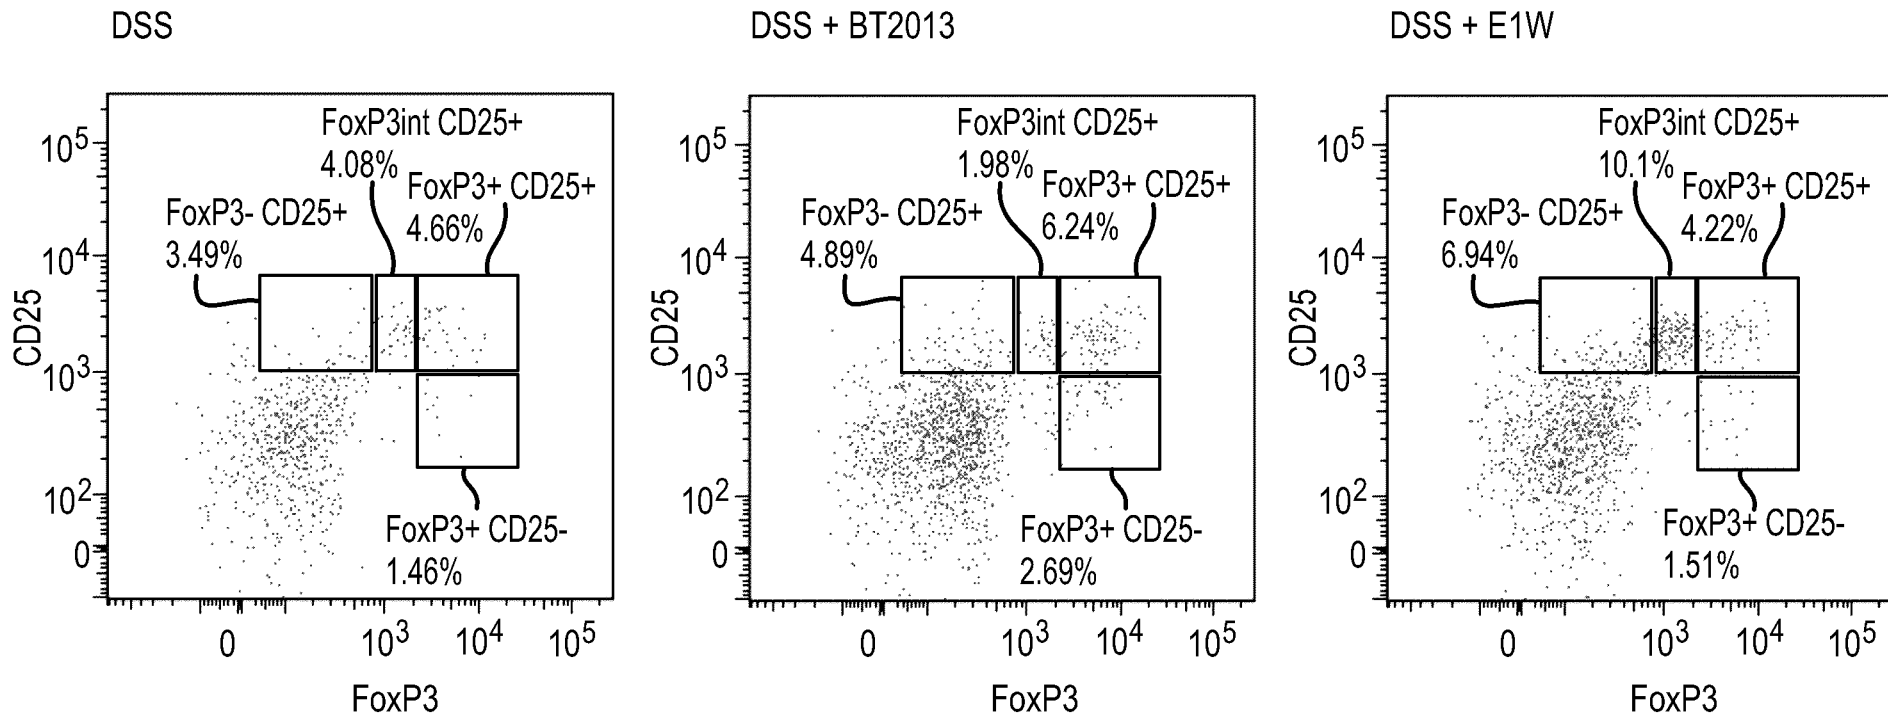

36. Применение *Bacteroides thetaiotaomicron* по п. 1, композиции по п. 2 или 3, фармацевтической композиции по п. 4 или 5, питательной добавки по п. 6 или 7, или кормового продукта, пищевого продукта, биологически активной пищевой добавки или пищевой добавки по п. 8 или 9 в производстве лекарственного средства для уменьшения экспрессии одного или более провоспалительных генов в клетке или клетках у субъекта.

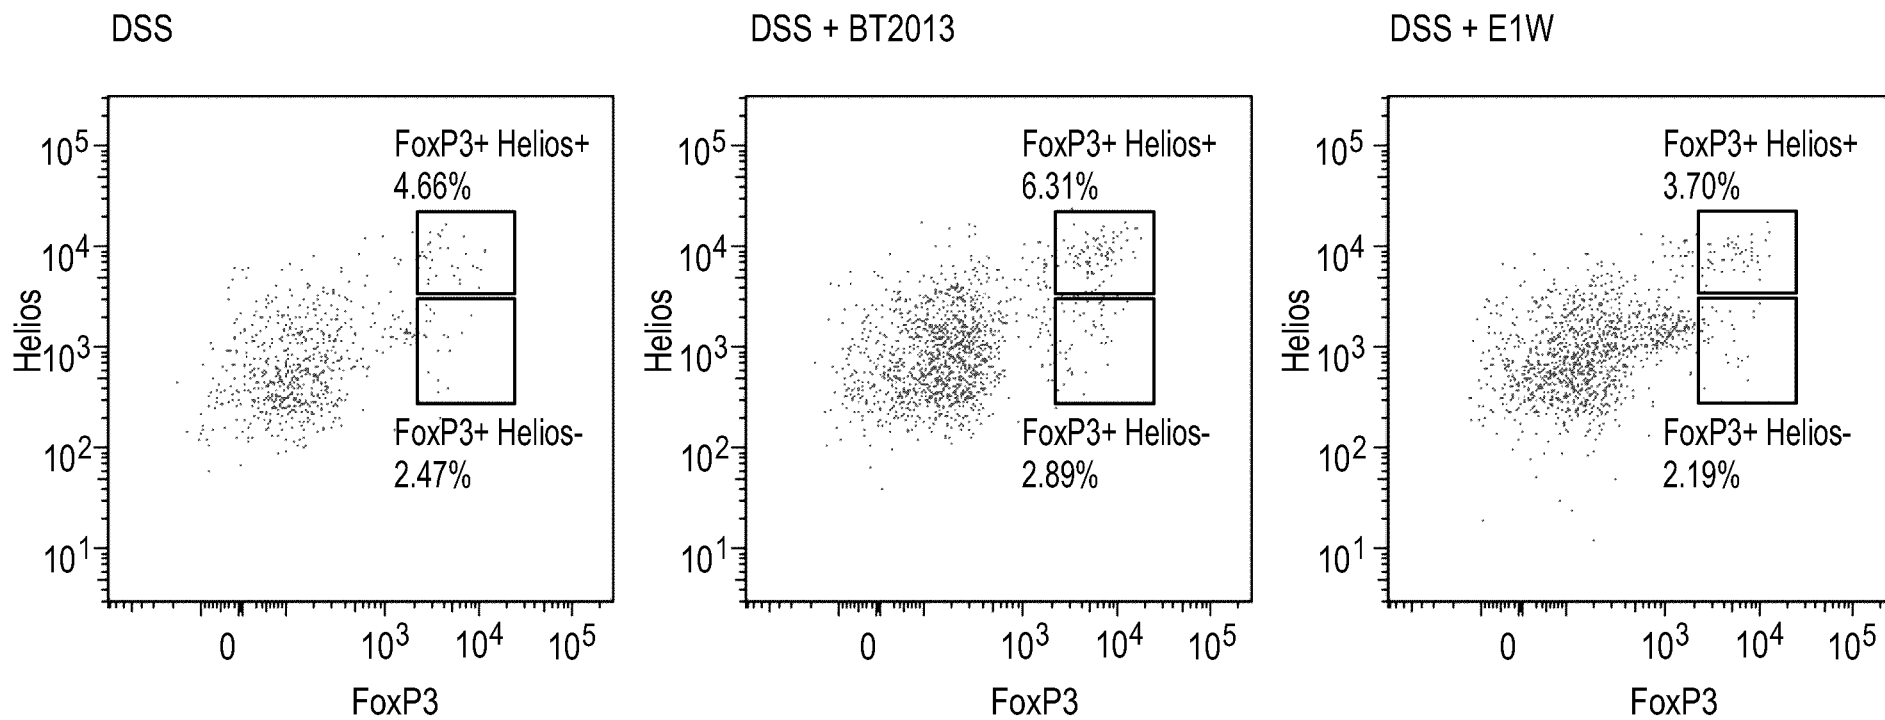

37. Применение *Bacteroides thetaiotaomicron* по п. 1, композиции по п. 2 или 3, фармацевтической композиции по п. 4 или 5, питательной добавки по п. 6 или 7, или кормового продукта, пищевого продукта, биологически активной пищевой добавки или пищевой добавки по п. 8 или 9 в производстве лекарственного средства для увеличения процентного содержания регуляторных Т-клеток (Treg) в пищеварительном тракте или секции пищеварительного тракта.
